And now to the 'essentials' of my reply e-mail:

Yes, The RPA would be stoutly in favour of

1. Amending the federal Road Vehicle Standards Act, 2018 to allow 'mutual recognition' of ALL individual State engineering, approved certifiers and certification schemes, to be recognised and accepted by ALL State registration authorities;
2. Establishing a National Vehicle Modification and Certification program for in-service registered passenger vehicles as recommended to be implemented federally and in parallel with ADRs;
3. Ensuring industry and community engagement is a key basis for the vehicle modification framework.

You may take this as The Republican Party of Australia's concurrence with Vehicle Standards & ICT Services and/or the 4WD Australia Association's policy.

Yours Patriotically,

PETER C.
