Dear Miles,

RE: One Nation NSW support of the aims of 4WD Australia Association.

I am pleased to write in support of you and the 4WD Australia Association.

If elected to the NSW Legislative Council following the State Election on 23rd March, we will happily support the "Time To Align" campaign, allowing vehicle modification standards to be managed at the federal level, in parallel to ADRs as long as modification do not present a danger to other road users.

It does not make sense for individual states and territories to have differing legislation on this.

Please be assured that I and my team will work with your group in seeking the establishment of a national scheme. We look forward to your support to ensure we can represent your views in the NSW parliament going forward.

Yours sincerely,

Mark Latham
One Nation Leader NSW & Legislative Council candidate
