Dear Mr Brennan

Thank you for your correspondence regarding the upcoming Northern Territory general election and request for changes to vehicle modification standards.

Territory Labor is committed to improving road safety and acknowledges the frustration experienced by your members due to the various vehicle modification standards and processes across states and territories.

Our Government is currently looking at ways to reduce regulatory and administrative burden across Government to make it easier to do business in the Territory.

A re-elected Labor Government would support the establishment of a national working group to work with key stakeholders and experts regarding harmonisation of vehicle standards and enabling mutual recognition of approved vehicle modifications across jurisdictions.

Yours sincerely
